

## MEETING AT ACADEMY

Dr. Charles W. Kent to Speak  
for Y. M. C. A.

## EXCELLENT MUSICAL PROGRAM

Association Orchestra and Saxophone  
Quartette to Be Assisted by Miss  
Reed, Harpist and Soprano—Men-  
bership Contest.

A great crowd is expected to as-  
semble at the Academy of Music this  
afternoon to attend the open meeting  
under the auspices of the Young  
Men's Christian Association. The  
feature of the meeting will be an ad-  
dress by Dr. Charles W. Kent, of the  
University of Virginia.

An entertaining musical program  
will be rendered by the association  
orchestra, saxophone quartette and  
Miss Helen Beatrice Reed, of Phila-  
delphia, harpist and soprano.

Unlike most meetings held by the  
association, this one will be open to  
both ladies and gentlemen.

This meeting will be in the nature  
of an introduction to the membership  
contest which is to be started by the  
association tomorrow. The contest will  
last for six days only and during that  
time it is proposed to increase the  
membership of the association to 600.

Every member must belong to one  
side or the other. Messrs. C. D.  
West and J. A. Sommerville are the  
chiefs of the respective sides.

Saturday night a supper will be  
served to the winners of the contest  
and the new members.

The Exploitation Commission is  
waiting for responses to the subscrip-  
tion postals, recently sent out. A re-  
ply of some kind is expected from  
everyone to whom a postal was sent.  
The fund for exploitation continues to  
grow slowly but surely. Saturday  
is a bad day for canvassing, so Sec-  
retary Farrar did not go out yester-  
day.

## MOTHERS AND CHILDREN.

National Congress of Mothers to Play  
Part at Exposition.

An Associated Press dispatch from  
Philadelphia says:

Mrs. Frederick Schoff, of this city,  
president of the National Congress  
of Mothers, today announced that the  
National Congress of Mothers will  
have charge of the Mother's and Chil-  
dren's building at the Jamestown Ex-  
position. There will be a model nur-  
ery, a kindergarten, a bathing house  
and play ground. Nurses will be pro-  
vided to take charge of children who  
may be left there.

The Mother's building, which is con-  
nected with the Children's building  
by a veranda, will contain a reading  
room and library, where books of in-  
terest to mothers, educators and chil-  
dren will be exhibited.

Another Enjoyable Recital.

Another enjoyable recital was given  
at the Y. M. C. A. hall last night by  
the Broomel Reed Company. A crowd  
that filled the hall was well pleased  
with the entertainment.

V. P. I.—BUCKNELL UMPIRE  
MOBBED BY ENTHUSIASTS

(Continued from First Page.)

The visitors scored twice in the  
first half through the splendid kick-  
ing of Harlan. His scoring of a goal  
from a drop kick was the feature of  
the game and his goal from placement  
was as straight as the flight of an ar-  
row. Eight thousand persons were  
present.

It was a fast and well played game,  
with few fumbles, and the general im-  
pression at the finish was that in com-  
paring the showing made by Yale and  
Princeton against the Army, the New  
Jersey men will be able to give the  
New Haven contingent a hard battle  
next Saturday.

Roulon-Miller, of Princeton, and  
Weeks of West Point were put out  
of the game for slugging.

The second half was full of exciting  
plays and several changes were made  
in the line up on both sides, owing to  
injuries, but the only one badly hurt  
was Dillon, who it is said, at the end  
of the game was not seriously injured.

## Vanderbilt Has Hard Tussle.

NASHVILLE, TENN., Nov. 10.—  
Rose Polytechnic of Terre Haute,  
Ind., gave Vanderbilt its hardest game  
of the season on Dudley Field today.  
The final score was 33 to 0 in Van-  
derbilt's favor, but the Gold and Black  
was penetrated often by Rose for big  
gains and in the early part of the  
game the goal was more than once in  
danger. Once the Indians rushed the  
oval to the five yard line on  
straight kicking.

## Football Player Killed.

GREAT FALLS, MONT., Nov. 10.—  
In a football game at Fort Shaw to-  
day between Great Falls and Fort  
Shaw Indian teams, James Curtis, of  
the Great Falls team, was killed in a  
scrimmage, internal injury causing  
death. Curtis was a native of Syra-  
cuse, N. Y.

## Douglas Wins for Navy.

ANNAPOLIS, MD., Nov. 10.—The  
Naval Academy football team this af-  
ternoon defeated the Swarthmore Col-  
lege eleven, 5 to 1, in a hotly con-  
tested game, the latter half of which was  
scoreless.

The game marked the return to the  
Naval Academy defense of Midship-  
man Hugh Douglas of Nashville, Tenn., the half back, who has been  
out of the game for a year because of  
an injury to his knee. The first time  
he was given the ball he gained eight  
yards through the left of Swarth-  
more's line, which like their back  
field outwitted that of the Midship-  
men greatly.

## Brown Holds Yale to 5.

NEW HAVEN, CONN., Nov. 10.—  
Speedy, staying and rallying power  
won today at Yale Field a victory for  
the Yale eleven over the Brown team  
in one of the hardest football battles  
of the season. The final score was 5  
to 0.

The visitors played all around the  
Yale team for almost the whole of the  
first half, sensational work marking  
the opening moments of the game.  
The blue team played almost entirely  
in the defensive during the first half,  
depending on Veeder's punting to keep  
the ball out of dangerous territory.

In the second half Yale showed bet-  
ter form, and while the forward pass  
was not once used and no trick plays  
were in evidence, Brown's offense was  
held in better check and the blue be-  
gan to play more aggressively.

## Cornell Beats Holy Cross.

ITHACA, N. Y., Nov. 10.—Cornell  
football team defeated Holy Cross to-  
day in a hard struggle by the score  
of 16 to 6. The game was so fierce-  
ly fought that the ball continually  
changed hands.

The officials penalized both sides  
frequently and heavily.

## Minnesota Holds Chicago.

CHICAGO, ILL., Nov. 10.—Univer-  
sity of Minnesota football eleven, to-  
day defeated the University of Chicago,  
4 to 2, on Marshall Field. Handi-  
capped by a soggy field, and a slippery  
ball, the result of a drizzling rain that  
fell throughout the game, Chicago's  
speedy back field was seldom able to  
get the ball within Minnesota's dan-  
ger zone. Minnesota's line stood solid  
against all attacks. In fact, Chicago's  
attempts to gain by old fashioned foot  
ball frequently resulted in a loss.

On the other hand Chicago's line

though clearly outplayed, stood firm-  
ly enough on defense to protect Eck-  
ersall during all his punting.

## Football Player's Leg Broken.

ANN ARBOR, MICH., Nov. 10.—  
Captain "Joe" Curtis, of the Univer-  
sity of Michigan football team had  
his left leg broken this afternoon dur-  
ing the second half of a game between  
the varsity team and a team compos-  
ed of ineligible and scrubs. He will  
be in the hospital for several weeks  
and his absence in the important  
game with Pennsylvania next Satur-  
day will greatly reduce Michigan's  
chance of victory.

## Pennsylvania Fails to Score.

PHILADELPHIA, PA., Nov. 10.—  
The University of Pennsylvania and  
Lafayette fought each other to a  
standstill this afternoon, neither side  
being able to cross the others goal  
line.

It was essentially a kicking game,  
more punting being seen than in any  
game here this season.

## Harvard Defeats Indians.

CAMBRIDGE, MASS., Nov. 10.—  
Harvard defeated the Carlisle Indians  
today in a lively game on the Soldiers  
Field by a score of 5 to 0. The touch-  
down came through a fine 47-yard run  
by Wendell in the first five minutes  
of the second half.

The Harvard back went through  
the Carlisle centre on a delayed pass  
and from his own 45 yard line planted  
the ball on Carlisle's 18 yard line.  
From that point six Harvard rushes  
carried the ball across the line, Wen-  
dell having the honor. Burr failed to  
kick an easy goal.

Although they out kicked Harvard,  
the Indians played a disappointing  
game. What few tricks they attempt-  
ed failed to result in any material  
gains and only once in the entire con-  
test did they gain a first down and  
that was due to five yards allowed  
them on Harvard interference.

## THE DRAPIER LETTERS.

Dean Swift's Battle for the Rights  
of Ireland.

The Drapier letters, six of which,  
signed "M. B. Drapier," appeared in a  
Dublin newspaper in 1721, mark an era  
in Irish history. They were the work  
of Dean Swift, the author of "Gulliver's  
Travels." The occasion calling  
them forth was the grant of a patent  
in 1723 to William Wood, an English-  
man of Birmingham, to coin halfpence  
and farthings to the extent of £108,000  
to be current in Ireland, where there  
was a deficiency of copper coinage.  
Public feeling in Ireland was in a state  
of irritation at its treatment by Eng-  
land, and Swift took advantage of the  
coinage business to advocate the rights  
of Ireland. Under the mask of a plain,  
honest, patriotic tradesman he coun-  
seled all true patriots not only to re-  
fuse to take the new coinage, but to  
refrain from using any English man-  
ufactures whatever. The result was  
tremendous. No one would take Wood's  
money, and associations were formed  
for refusing the currency. The publica-  
tion of the first three letters had so  
roused the temper of Ireland that it  
was now easy for Swift to come to the  
real point of issue. In the fourth let-  
ter he accordingly treats of the royal  
prerogative. The government instantly  
took alarm and offered a reward of  
£300 for the discovery of the author of  
this fourth letter. Its printer was  
thrown into prison. But all was in  
vain. The government yielded to the  
storm. Wood's patent was surrendered,  
the patentee being indemnified by a  
grant of £3,000 yearly for twelve  
years. Thus, through the force and an-  
imation of Swift's arguments, victori-  
ously terminated the first grand  
struggle for the independence of Ire-  
land.—London Tit-Bits.

## SANITARY CONCRETE.

Building Material of the Future and  
Its Advantages.

The advantages of concrete on the  
mechanical side are these: It is proof  
against fire, wind and water, rats, in-  
sects and dry rot and the danger of  
electricity. It needs no painting or re-  
pair. Fire or water overflow inside can  
do only local damage to the contents of  
a room and no more.

It becomes stronger and harder with  
age, which is, of course, an advantage,  
except when additions or alterations  
are made, involving hard work to cut  
the walls and floors. There are no  
leaky roofs, no damp or cold east or  
north rooms. There is great economy  
of heating. Being a firm mass through-  
out, like a house made of baked clay,  
there is no vibration, and in case one  
spot of the foundation should be un-  
dermined the wall structure might  
not show so much as a crack. It is  
practically earthquake proof.

Concrete is healthful because it  
leaves no fissures for dust or for in-  
sects which spread disease. It is cool  
in summer and warm in winter, and  
with a minimum of exertion can be  
kept sweet and clean. On the artistic  
side, as the house beautiful, it lends  
itself to sculpture and painting, and as  
an object on the landscape it can be  
made a joy to the eyes.—Country Life  
in America.

## Red and White Wine.

"A misapprehension about the strength  
of red and white wines exists," said a  
vine grower. "Because red wine has a  
darker, richer look people think it is  
more intoxicating. The opposite, real-  
ly, is the case. Red wines are made  
by fermenting grape juice, skins and  
seeds together. White wines are  
made by fermenting juice alone. In the  
skins and seeds there is a lot of tannin,  
and red wine contains much tannin,  
while white wine contains none. This  
tannin, an astringent, closes the pores of  
the stomach and prevents the alcohol in  
the red wine from entering the blood  
freely and going, as the saying is, to  
the head. White wine, champagne for  
instance, has no tannin, and hence its in-  
toxicating properties are much more keenly  
to be feared than those of the tannin  
filled red wine."—Philadelphia Buletin.

## Industrious Chinese Children.

The Chinese are a wonderfully in-  
dustrious people, and their children  
learn very early to make themselves  
useful. In the streets of a Chinese  
town it is no uncommon sight to see  
two children who are so young that  
they can hardly talk trotting along  
with a bamboo pole on their shoulders  
by which they are carrying home a pail  
of water. If one child is stronger than  
the other the pail is hung near his  
shoulder, for thus he takes the "heavy  
end of the pole."

## A Collector of Snuffboxes.

The only expensive personal fancy  
of Frederick the Great, it is said, was  
his hobby for collecting snuffboxes, of  
which he left as many as 130, approxi-  
mately valued at \$1,300,000. Lord  
Malmesbury says that one could hard-  
ly approach the king without sneezing.  
Two thousand pounds weight of Span-  
ish snuff had always to be kept in  
store, but smoking, on the other hand,  
was an abomination to Frederick.

## Choice of Evils.

Smiley—I hope you won't mind if I  
bring a friend home to dinner tonight,  
dear. Mrs. Smiley—Oh, no, sir. That  
is better than being brought home by  
a friend after dinner.—Chicago News.

## Girl Friendship.

Edith—Did you sing for Mr. Bore-  
leigh last night, Ada—Yes, I sang al-  
most a whole hour for him. Edith—  
I'm so glad to hear it! I've always  
had the greatest aversion to that man!

In reality history is of no avail.  
Humanity is caught every day in  
traps that have served before.
